2. Assign tasks to its members for specific input/activities that meet our approved resolutions and policies, and our plan for the coming years.
3. The ED sits on all CMC-Global committees to provide the full picture and on the CMC-GI Board Meetings.

5. Committees report to the Board for any needed approvals (policies, ToRs, recommendations...etc.)

Upon finalizing the committees, those will be issued soon after.

Please submit your members' nomination as soon as possible, and no later than 31 December 2016.

Thanks goes out to all the Members for giving this their attention as the committees will be handling important matters that will address the growth of our network during the coming years. I know that all Members expressed interest in increasing their involvement with ICMCI through volunteers during our Collaborative Approach calls, and I hope those will provide the nominations as promised.

Nominations by the IMCs are to be sent to:
